

LABHPREET KAUR

AI TRAINING & BUSINESS ANALYSIS PORTFOLIO

PROFILE SUMMARY

Business and Management professional with a Bachelor's Degree in Business Management (University of Toronto) and a Diploma in Business Marketing (Algonquin College). Experienced in retail, hospitality, and healthcare support environments with strong exposure to structured workflows, transaction processing, customer service operations, and compliance-based systems.

BUSINESS CASE ANALYSIS SAMPLE

Case: Retail Inventory Shortage Issue

Problem: Frequent stock shortages leading to lost sales.

Analysis:

- Poor inventory tracking
- Delayed supplier restocking
- Weak demand forecasting
- Lack of real-time monitoring

Recommendation:

- Real-time inventory system
- Automated reorder thresholds
- Better supplier coordination
- Staff training on stock accuracy

AI TRAINING TASK SAMPLE

Prompt: Customer received wrong product.

Good Response includes empathy, steps, and resolution options.

Poor Response lacks detail and guidance.

Conclusion: Structured empathetic responses are higher quality.

RETAIL OPERATIONS ANALYSIS

- High-volume queue delays due to slow POS and staffing inefficiencies
- Improvements: workflow optimization, queue management, faster payments

WORKFLOW EVALUATION

- Issues: order delays, inventory mismatch, communication gaps
- Solutions: standardized processes, tracking systems, training

CORE SKILLS

Business analysis, retail operations, order processing, workflow evaluation, data validation, customer service systems, Excel, POS systems.
